

Felipe C. Figueiredo

MD Candidate | Belo Horizonte, Brazil

feliipe.figueiredo@hotmail.com | +55 (71) 99959-2670 | linkedin.com/in/felipedcfigueiredo/

EDUCATION

M.D. Candidate | Federal University of Minas Gerais (UFMG), Belo Horizonte, Brazil Expected Dec 2026

- WES course-by-course evaluated GPA: 3.73/4.00 (245 completed credit hours through the 10th semester).
- USMLE Step 1: Pass (September 2026).
- Duolingo English Test: 145 (July 17, 2026. C1/C2).

CLINICAL EXPERIENCE

International Clinical Clerkship | CHU Lille - Lille University Hospital, France 2026

- Completed a 10-week clerkship in Burn Anesthesia and Cardiothoracic Anesthesia at a tertiary academic referral center.

RESEARCH EXPERIENCE

Assistant Editor and Healthcare Consultant | Afya Jan 2026 - Present

- Author evidence-based clinical educational content and perform clinical quality review of large-language-model outputs for physicians and medical students.
- Contribute clinical-domain expertise to the development and evaluation of digital tools for medical education and bedside information retrieval.

Research Assistant | Alpha Institute of Gastroenterology, UFMG 2024

- Coordinated recruitment and informed consent for a prospective microbiome cohort involving liver-transplant recipients.
- Processed, catalogued, and archived biospecimens using standardized biobanking procedures.

Research Assistant | Hypertension Lab, UFMG 2022

- Conducted preclinical cardiovascular research using MRGPRD-knockout mouse models to investigate blood-pressure regulation.
- Performed tail-cuff blood-pressure measurements, spectrophotometric assays, biospecimen preparation, vascular-reactivity experiments, and cardiovascular physiology data analysis.

ONGOING PRIMARY RESEARCH

Figueiredo FC. From Inpatient Analgesia to Discharge Prescribing: Clinically Validated Machine Learning to Identify Opioid Stewardship Opportunities After Orthopedic Surgery. Retrospective MIMIC-IV/MIMIC-IV-Note EHR model-validation study. Protocol registered on OSF (DOI: 10.17605/OSF.IO/4KWRF); cohort definition and extraction in progress.

Figueiredo FC. Clinical Usefulness and Transportability of Routine-Data Hypotension Warnings After Traumatic Brain Injury. MIMIC-IV neurocritical-care machine-learning study evaluating documentation delay, observation frequency, and transportability; Monte Carlo simulations in progress.

MANUSCRIPTS

Selected first-author systematic reviews involved protocol/question development, literature searching and screening, project coordination, manuscript drafting, and submission; statistical analyses were performed in R where applicable. All review stages were conducted with at least two investigators.

Figueiredo FC, et al. Remimazolam as a Novel Sedative Agent in Adult Intensive Care Units: A Systematic Review and Network Meta-Analysis. PROSPERO CRD420261437255. Under review at Journal of Critical Care.

Menezes CRB, Saffi M, Vendrusculo C, Figueiredo FC, Viana DC, Machado A, Sampaio GM. Septal Myectomy Combined with Mitral Valve Repair vs. Replacement in Hypertrophic Cardiomyopathy: A Systematic Review and Meta-analysis. PROSPERO CRD420261416319. Under review.

Figueiredo FC, Machado A, Marques MEG, Saffi M, Pinheiro LF, Menezes CRB, Sousa L, Sampaio GM. Histidine-Tryptophan-Ketoglutarate (HTK/Custodiol) Cardioplegia Versus Blood Cardioplegia for Myocardial Protection in Adult Valve Surgery: A Systematic Review and Meta-Analysis. PROSPERO CRD420261416550. Under review.

Souza M, Figueiredo FC. afya-medqol: A Python Package for Computing the Afya MedQoL Physician Quality-of-Life Index. Under review.

Figueiredo FC, et al. Prophylactic Pre-Endoscopic Intubation in Acute Upper Gastrointestinal Bleeding: A Systematic Review and Meta-Analysis. PROSPERO CRD420261492790. Prepared for submission to Journal of Critical Care.

ACCEPTED ABSTRACTS AND POSTER PRESENTATIONS

Figueiredo FC, Machado A, Marques MEG, Saffi M, Pinheiro LF, Menezes CRB, Sousa L, Sampaio GM. Histidine-Tryptophan-Ketoglutarate (HTK/Custodiol) Cardioplegia Versus Blood Cardioplegia for Myocardial Protection in Adult Valve Surgery: A Systematic Review and Meta-Analysis. Accepted as a digital poster, American Heart Association Scientific Sessions, 2026.

Figueiredo FC, et al. Durability, discontinuation, rebound progression, and rechallenge after MAPK-pathway inhibition in pediatric BRAF V600E-mutant low-grade glioma: a systematic review and meta-analysis. Accepted as a digital poster, Congress of Neurological Surgeons Annual Meeting, 2026.

Figueiredo FC, et al. Snakebite Emergencies: A Review. III National Congress of Trauma and Emergency Medicine, 2024.

Figueiredo FC, et al. Myocardial Bridge in Athletes: A Case Study. 35th Brazilian Congress and 29th Pan-American Congress of Sports Medicine, 2023.

SUBMITTED ABSTRACTS

Figueiredo FC, et al. Remimazolam as a Novel Sedative Agent in Adult Intensive Care Units: A Systematic Review and Network Meta-Analysis. Submitted to the Society of Critical Care Medicine Critical Care Congress, 2027; decision pending.

Figueiredo FC, et al. Early Vasopressor with Fluid Restriction Versus Standard Fluid Resuscitation in Septic Shock. Submitted to the Society of Critical Care Medicine Critical Care Congress, 2027; decision pending.

Figueiredo FC, et al. Functional-flow Monitoring for Delirium and Cognitive Outcomes After Adult Cardiac Surgery. Submitted to the Society of Critical Care Medicine Critical Care Congress, 2027; decision pending.

Figueiredo FC, et al. Individualized Cerebral Autoregulation-derived Blood-pressure Targets After Acute Brain Injury. Submitted to the Society of Critical Care Medicine Critical Care Congress, 2027; decision pending.

Figueiredo FC, et al. Prophylactic Pre-Endoscopic Intubation in Acute Upper GI Bleeding: Systematic Review & Meta-Analysis. Submitted to the Society of Critical Care Medicine Critical Care Congress, 2027; decision pending.

Jorqueira ECB, et al. Transpulmonary Thermodilution in Septic Shock and ARDS: A Meta-Analysis of Randomized Trials. Submitted to the Society of Critical Care Medicine Critical Care Congress, 2027; decision pending.

Rangel da Silva Neto M, Jones PNR, Vergna RD, Souza de Moura Ribeiro M, Teles GA, Figueiredo FC. Automated vs. Manual Oxygen Titration in Critically Ill Patients: A Meta-Analysis of RCTs and TSA. Submitted to the Society of Critical Care Medicine Critical Care Congress, 2027; decision pending.

Pivetta HB, Costa JVG, Massoud RO, Mendes RG, Alles I, Fonseca LG, Forte DN, Pimenta GP, Figueiredo FC. LMWH versus DOACs for Thromboprophylaxis After Bariatric Surgery: A Meta-Analysis. Submitted to the Society of Critical Care Medicine Critical Care Congress, 2027; decision pending.

OPEN-SOURCE TOOL

Clinia - github.com/felipe2170/Clinia

- Web application for organizing clinical notes and case-log workflows during medical internship rotations; approximately 200 users across multiple Brazilian medical schools. Brazilian software registration BR512025003190-4.

TEACHING AND SERVICE

Student Tutor, Systemic Anatomy | UFMG 2022

- Designed weekly anatomy review sessions and supervised cadaveric dissection for 16 medical students.

Medical Student Volunteer | Caminhos do Trabalho 2025 - 2026

- Supported supervised occupational-health assessments and preventive-health education for underserved workers.

Medical Student Volunteer | Brazilian Red Cross 2025 - 2026

- Facilitated community health education, humanitarian outreach, and disaster-relief initiatives.

SKILLS

Research: protocol and question development; systematic review and meta-analysis; literature searching and screening; statistical analysis in R; risk-of-bias assessment; GRADE; manuscript drafting, project coordination, and submission; REDCap; patient recruitment, informed consent, and biobanking.

Computational: Git (proficient); working knowledge of Python, SQL, pandas, and scikit-learn.

Languages: Portuguese (native); English (Duolingo English Test 145, July 2026); French (B1); Spanish (B1).
