RESEARCH EXPERIENCE

Assistant Editor and Healthcare Consultant Jan 2026 - present

Afya

Authored evidence-based educational content and conducted quality control of a large language foundation model for physicians and medical students on one of Latin America's largest digital medical education platforms.

Contributed to the technical development of a clinical-AI tool used as an evidence source for bedside decision-making, serving an estimated 400,000 registered and 150,000 monthly active physicians across Latin America.

Research Assistant 2024

Instituto Alfa de Gastroenterology, UFMG

Coordinated patient recruitment and informed consent for a prospective microbiome cohort study involving liver transplant recipients.

Processed, catalogued, and archived biospecimens following standardized biobanking protocols.

Research Assistant 2022

Hypertension Lab, UFMG

Conducted preclinical cardiovascular research using MRGPRD-knockout mouse models to investigate mechanisms of blood pressure regulation.

Executed non-invasive blood pressure assessments using tail-cuff plethysmography and analyzed cardiovascular physiology data.

Carried out spectrophotometric assays and vascular reactivity experiments evaluating almandine-mediated responses and arterial stiffness.

Applied translational research methodologies, including rodent handling, biospecimen preparation, physiological data acquisition, and laboratory instrumentation.
